Distance Learning

Primary Caregiving and Continuity of Care
Training time: 1 hour
Topic: 1 Fee: \$15
Because babies and toddlers learn in the context of one-on-one relationships, the most important ingredient in high quality child care is the relationship between the caregiver and the child and his or her family.

Planning Transitions to Prevent Challenging Behaviors
Training time: 1 hour
Topics: 1, 3, 4 Fee: \$15
Over the past decade, there has been a significant rise in the number of children in child care settings. As a result of this trend, child care providers have become more concerned about children with challenging behaviors and the effects of those behaviors on others in the classroom. This training will discuss some techniques to try to prevent some of these challenging behaviors.

The Wisdom of Play
Training time: 1 hour
Topic: 1 Fee: \$15
For young children in particular, play is a fundamental mode of learning. This workshop will discuss the importance of play and what children learn from play.

Regulations Scavenger Hunt
Training Time: 1 hour
Topic: 7, 8 Fee: \$15
Instead of listening to us tell you about the regulations, you get to show us how much you know in this Regulations Scavenger Hunt!

Child Abuse and Maltreatment Identification and Prevention
Training time: 2 hours
Topics: 6, 8 Fee: \$25
This workshop will cover necessary information on the subject of Child Abuse and Maltreatment and your role as a mandated reporter.

What Every Child Care Provider Should Know About Sudden Infant Death Syndrome
Training Time: 2 hours
Topics: 1, 2, 4, 7 Fee: \$25
Research on sudden unexpected infant death has led to both regulations and new recommendations about safe sleep. When you care for babies, understanding this information is important not only for your own practices, but so you can share the information with parents and other people in babies' lives.

Developing a Marketing Plan
Training Time: 2 hours
Topic: 5 Fee: \$25
Owning and operating a child care business can be a very challenging and rewarding career. Success in this field requires dedication, love, patience and business skills. This training will assist you in developing a marketing plan so that you can help your business grow and be successful.

ACCORDING TO PROVIDERS LIKE YOU...

“I think that the on-site trainings are great with my busy schedule. I can get the hours needed and at my convenience. They are very informative and I can also make sure that my staff gets the hours they need, so we all are in compliance.” Debra, GFDC, Beacon

“We prefer to have our trainings on-site through the Council. The staff has an opportunity to build a relationship with the trainers and can benefit from that relationship better then taking an online class or video. It is through these trainings that my staff can share experiences with each other and talk about conflicts in their personal careers to resolve problems and better their individual classrooms. It is so comfortable for our staff to have trainings in our own school and our own environment. ” Jennifer, DCC, Cold Spring
